

Daniel K. Borsos, P.E.

Mr. Borsos is Chief Structural Engineer of the Firm. He is responsible for the application of all structural engineering fundamentals within the Firm. He has the ability to combine highly theoretical concepts with practical applications to produce highly efficient structures.

Mr. Borsos' specialties include seismic design, design of structures to resist high winds, renovation, and value engineering. He has been selected to provide engineering consulting for the construction of several of Frank Lloyd Wright's designs. He has been able to adapt the original designs and update them with modern code requirements of seismicity and high winds.

- 28 Years of Experience
- Registered Professional Engineer
 - Alabama, Missouri, South Dakota, Tennessee, Vermont, Wyoming
- Registered Civil Engineer
 - California
- Education
 - B.S. – Tennessee Technological University, 1979
 - M.C.E. – North Carolina State University, 1981
- Professional Affiliations
 - American Institute of Steel Construction
 - National Council of Engineering Examiners
 - National Society of Professional Engineers
- Honors and Awards
 - Chi Epsilon
 - Tau Beta Pi
